

2022 Ocean Awareness Contest

A CREATIVE CHALLENGE FOR TEENS WORLDWIDE

The global Ocean Awareness Contest is a platform for young people to learn about ocean issues through art-making and creative communication, and where teens can explore their relationship to a changing world and become advocates for environmental action. Students ages 11-18 from are invited to participate.

THEME

THE FUNNY THING ABOUT CLIMATE CHANGE

The ocean makes life on Earth possible, and it is one of our biggest tools to fight climate change. The ocean helps regulate our climate and absorbs heat, and currents distribute that heat around the globe. Photosynthetic organisms like phytoplankton and kelp remove heat-trapping carbon dioxide. Sea ice reflects the sun's radiation back out of our atmosphere. **We need to protect our ocean if we are to have a chance at reversing climate change.**

With warming happening even faster than scientists previously thought, catastrophic changes are happening on Earth. Glaciers are melting and contributing to sea level rise. Coral reefs are bleaching and ocean chemistry is changing, making a more hostile environment for the animals that call the ocean home and causing biodiversity to plummet. On land, we are experiencing floods, droughts, wildfires, and more intense hurricanes than ever before. It's a dire situation made worse by misinformation, doomism, divisiveness, and apathy. What tools do we have to kickstart action to protect our blue planet?

Humor, satire, and irony are powerful communication tools. Yes, even for an issue as serious as climate change. Studies have shown that humor can break down barriers, empower people, and instill hope. In other words, humor is disarming and provides a safe way for people to approach and understand divisive topics like climate change. Humor and satire capture attention... they are effective ways to make sure your message is heard.

We are inundated with the scary realities of climate change, which can make us feel helpless, hopeless, and overwhelmed. Approaching climate change from a fresh perspective can help alleviate climate anxiety and build resilience. How can we use humor, and other unfamiliar and

unexpected approaches, to discuss something as serious as climate change without minimizing or undermining it?

THE FUNNY THING ABOUT CLIMATE CHANGE Prompt

Use humor, positivity, irony, or other unconventional approaches that are not typically used in environmental communication to address the climate crisis. Think outside the tackle-box, beyond clichés, to create something that makes the topic of climate change and our oceans more approachable and accessible.

This prompt is meant to inspire and guide you. Please feel free to expand on it—do not feel limited. Explore our Resource Studio for inspiration, and start creating!

Note: we know humor often breaks social norms and defies our expectations. We welcome you to push those boundaries, but please make sure that your piece is suitable for audiences of all ages. Racism, sexism, and homophobia will not be tolerated, and submissions that present any prejudices will be immediately disqualified from the Contest.

Select winning artwork will also be featured in promotional materials for the following year's We All Rise Prize.

Voice of the Sea Award (Spoken Word submissions only)

In partnership with poet/activist/educator Tayllor Johnson. As the Ocean Awareness Contest has grown over the years, young artists have continued to push the boundaries of our categories in ways that have intrigued and moved us. The Voice of the Sea Award was inspired by receiving a growing number of spoken word poems—pieces that truly came alive through performance. To celebrate this powerful mode of expression, Bow Seat recognizes two spoken word poetry submissions with Voice of the Sea Awards at the Gold-level in each age division: **one \$1,000 award for a Junior submission, and one \$1,500 award for a Senior submission.** Entries must follow the requirements for submitting in the Poetry & Spoken Word category.

Bay State Award (Massachusetts students only)

All students who reside in Massachusetts will be automatically considered for the Bay State Award, a special recognition to celebrate the creative young artists, thinkers, and activists in our home state. From the Housatonic River to the Quabbin Reservoir to the Atlantic Ocean, water connects us all and plays a wicked important role in the Commonwealth's economy, culture, and health of our human and non-human residents. Up to 3 winners in each age division will each receive a \$250 cash scholarship.

Hometown Award (Boston students only)

This award recognizes talented students in Bow Seat's hometown of Boston, Massachusetts. Eligible participants must demonstrate financial need. Up to 3 winners in each age division will each receive a \$250 cash scholarship.

South Coast, Cape & Island Award (Southeastern Massachusetts students only)

Thanks to the generosity of the Island Foundation—which is committed to the conservation of marine and coastal resources in southeastern Massachusetts—we will be offering two \$250 cash awards in each age division to Ocean Awareness Contest participants who reside on the South Coast of Massachusetts, Cape Cod, Martha's Vineyard, or Nantucket.

Publishing, Exhibitions, and Special Opportunities

As a winner, you may have a special opportunity to showcase your talents worldwide while raising awareness of ocean issues to a broader community. Bow Seat organizes art exhibitions, pop-up art shows, and social media campaigns; curates anthologies of art and poetry; and finds opportunities to publish student writing. As part of Bow Seat's student collection, your creative piece will help to educate and inspire audiences to take action!

Write Your Reflection

A written reflection is required to accompany your submission, regardless of category. It is like the introduction to a book or an artist's statement in a museum. The judges will not

Your reflection should describe 1) your creative process and 2) what you have learned through your exploration of the Ocean Awareness Contest theme, THE FUNNY THING ABOUT CLIMATE CHANGE. Use the following questions to guide your writing:

- What inspired your work?
- What feelings did the process of creating (art, writing, film, music, dance, interactive/multimedia) raise for you?
- What is your message to viewers of your artwork?
- After doing research on climate change and our oceans, what have you learned?
- What action(s) will you personally take now that you've learned about these issues?

Reflection Requirements:

- Length: Minimum of 100 words
- Your reflection must be written in English

Step 3: Submit

Students must create an account and submit their work through our online system. If you are submitting multiple works, you only need to create one account. JUDGING

The 2022 Ocean Awareness Contest results will be announced in November 2022. Winners and their sponsors will be notified via email before the results are publicly announced.

Bow Seat judges are artists, writers, teachers, scientists, and of course, ocean-lovers! Each year, we also invite a cohort of Bow Seat student alumni and emerging artists to participate in Contest judging. Meet the team at bowseat.org/about/our-team.

Judges consider:

- How well submissions address the annual theme of the Contest;
- Demonstration of artistic voice, originality, and imagination;
- Craftsmanship, including quality, technique, and skill in chosen medium; attention to detail; and accuracy in communicating issues; and
- If a submission meets category requirements (such as length, file type, etc.).

Judging begins immediately after the Contest ends, and we take the time to fairly judge each and every entry to the Contest. We receive thousands of entries, and our team of judges puts in thousands of hours of cumulative work each year reviewing your submissions.

We know that you're anxious to hear Contest results. We take an enormous amount of pride in the care we put into the Contest, and we appreciate your patience as we continue to do so!

INFORMATION FOR TEACHERS & SPONSORS

All student participants are required to provide the contact information for an Adult Sponsor. This can be a teacher, parent, guardian, mentor, coach, or other supporting adult.

Whether you are a teacher who assigned the Contest as a class project, a parent helping your child explore their creative potential, or an adult who was asked to be a sponsor for a student submitting on their own, your responsibilities are simple: all we need is to be able to contact you in case we have problems getting in touch with your sponsored student.

When your student submits their work, they will be asked to provide your name and email address. You will receive a confirmation email once they submit so that you can have it on record as well.

We have many resources in our new Resource Studio—including articles, lesson plans, and videos—to help you and your student learn more about issues related to climate change and our ocean, and to support project inspiration and planning. Visit bowseat.org/resources.

For Sponsors of Participating Students Under the Age of 13: Parent/Guardian Consent Forms (Page 19-22) are required for any participating student under the age of 13. On the first page of the online Contest submission form, select “Yes” to the question “Are you under 13 years old?” and choose an option:

1. ***Provide Consent Electronically.*** This option sends an electronic Consent Letter to the parent or guardian specified for an e-signature.
2. ***Upload Parent/Guardian Consent Form.*** This option allows you to upload a signed version of the PDF form. If you would like to upload multiple Consent Forms, combine all forms into one PDF or email the individual forms to us (see below).
3. ***Email Parent/Guardian Consent Form.*** Choose this option if you would like to email us at info@bowseat.org one or multiple signed Consent Forms, and we will add them to the student's submission.

Educator Innovation Awards

Many of our sponsors are teachers who effectively and creatively bring the Contest into their classrooms, teaching entire groups of students about ocean issues and empowering them to be stewards of our blue planet, while meeting important educational standards. To recognize their efforts, Bow Seat grants nomination-based Educator Innovation Awards of \$750. Visit bowseat.org/resources/for-teachers for details.
