ALGAE'S

ADVENTURES

ALGAE'S
ADVENTURES

Algae's Adventures is a public art chalk experience that tells the story of an Anti-Hero named Algae and his connection to nutrient pollution, safe drinking water, and our community.

Algae Bloom Issues

Harmful algal blooms, or HABs, occur when colonies of algae — simple plants that live in the sea and freshwater — grow out of control and produce toxic or harmful effects on people, fish, shellfish, marine mammals and birds. The human illnesses caused by HABs, though rare, can be debilitating or even fatal.
