

SAVING THE WORLD

ONE BAG AT A TIME

By Josh Liv...

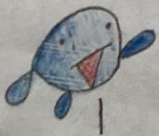

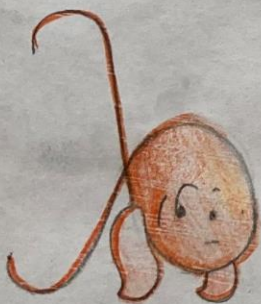

In a lake filled with a variety
of different fish, the conditions
were always perfect. Too Perfect.*
There was nothing much to
do except for eating
seaweed and throwing
it around for "FUN".
Until one day...

There's literally nothing except for seaweed.

Sighs... Yeah...

Hey, what's goin' on? -

PA!

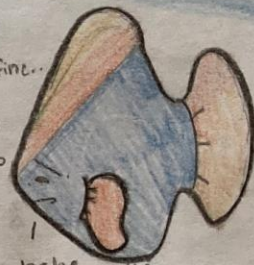

You good?

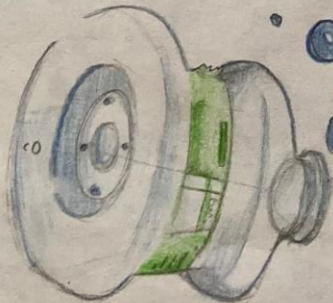

Ushh...

He's probaly fine...

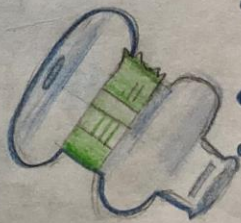

hehe... yeah...

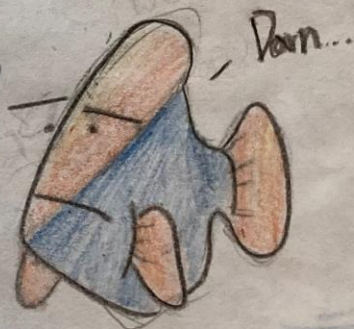

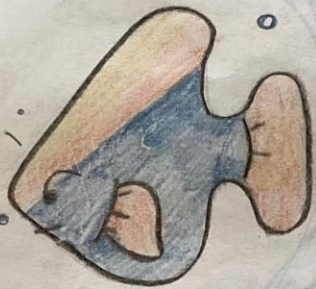

What is that anyways?

I dunno

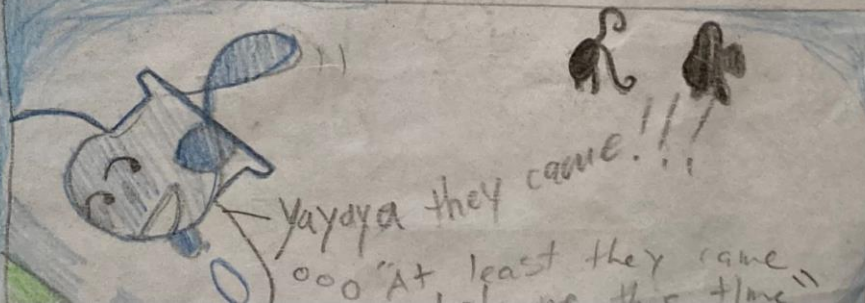

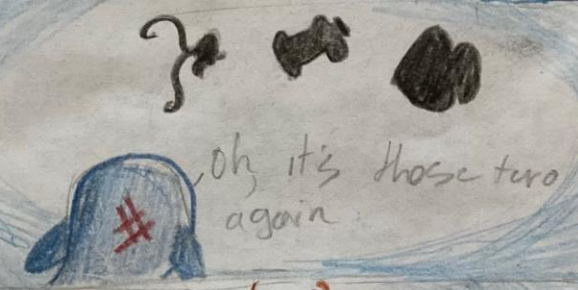

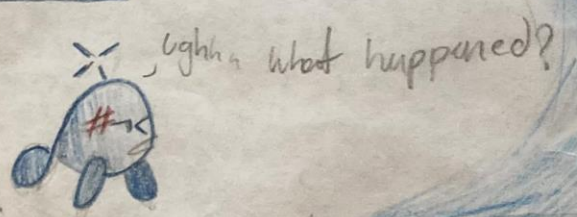

IS IT food?!

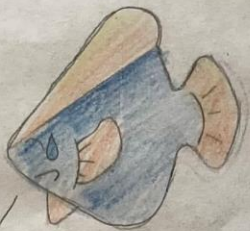

Meanwhile...

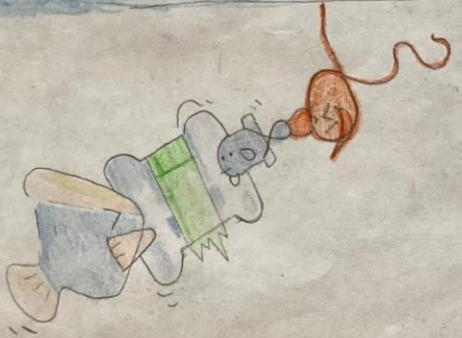

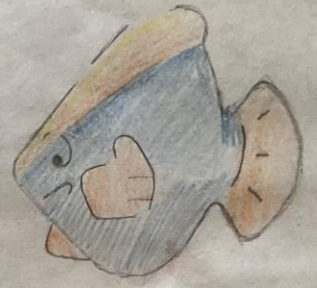

no problem,
can u just
help me?

Hey... Sorry about that hehe

OK

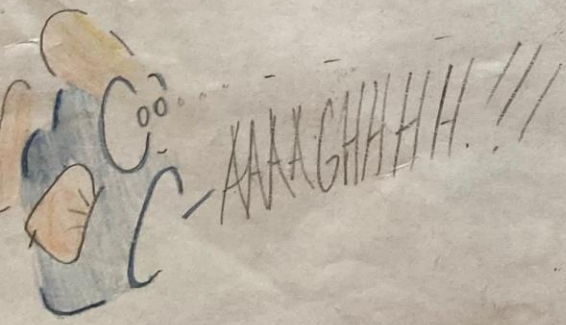

Then all of a sudden, a
plastic sneakyly approached
behind...

AAAAHHH!!!

Hey what happened?

AAAAAGHHHH!!!

Help!
I'm stuck!

The bag swallowed
him Yearly him stuck

What is that!!?

Just help me!!

even though he was nervous,
he knew he had to save
his friend

And once he grabbed his tail...

he pulled...
PAH!

and pulled...

until he couldn't hold on

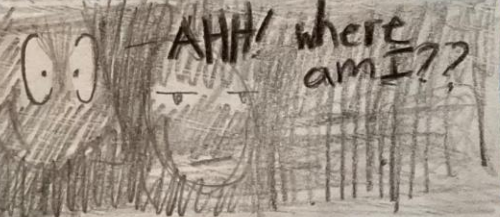

He launched himself from the bottle

to the bag...

AGHHHHHHH!!!

AHH! where
am I??

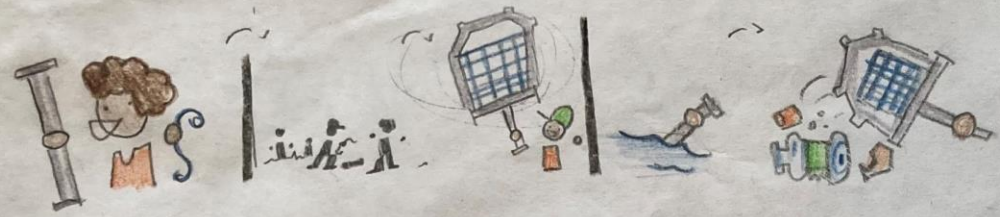

It's fine
just calm
down...

Joshua

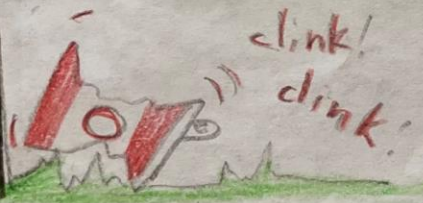

After some time, George's friends brought different material to build tools to capture trash.

And soon the group of kids were able to grab trash at a constant rate.

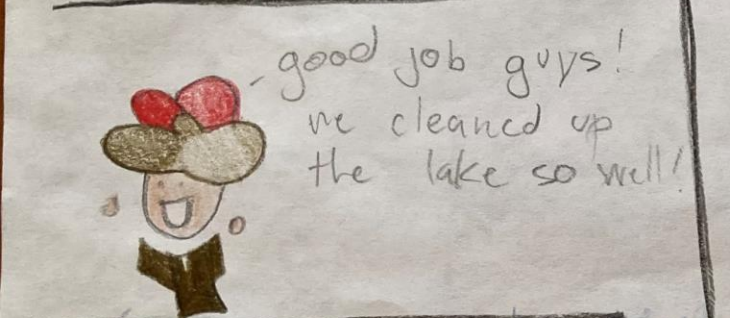

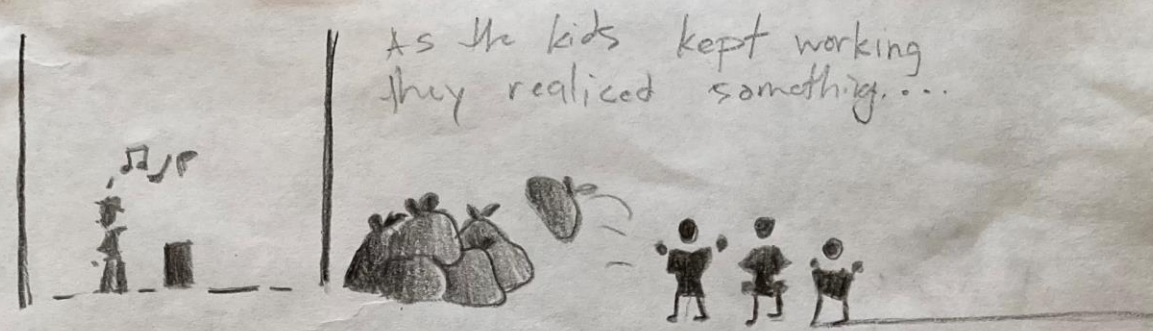

At the same time

- Ahhh, the weather is so nice today!

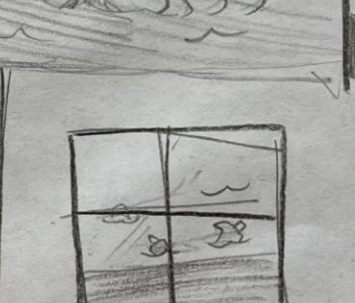

- You know what, I'm leaving
If we're just spend
all this time and effort
on nothing there's no point
into staying

Yeah same
same game here

wait guys! please don't leave-

From George's land work, it inspired many others to be aware of the problem and to help the community's water

After that the people start using alternatives to keep their community healthy. For example,

They moved from plastic bottles to reusable bottles:

They bring their own bags for shopping

And most importantly they're able to keep a healthy community

Mean while...

It's crazy how things place
has changed?

I know right!

Those mysterious materials
that sent us to a dark void
are GONE!!

And best of all...

Look at all these
new plants!

YEP! so
much better

YIPPEE

Blah Blah Blah

plastic containers
Beep!
Beep!

While the people in community
were talking...

A truck filled with plastic bottles
came by...

Boooo
Go away!!

...And they were not
happy with all the plastic
so they kicked the truck
out of their community

THE END
